**Or Telephone: 757-368-4150/4155**

*A medical scribe is a person, or paraprofessional, who specializes in charting physician-patient encounters in real time, such as during medical examinations. Depending on which area of practice the scribe works in, the position may also be called clinical scribe, ER scribe or ED scribe, or just scribe. A scribe is trained in health information management and the use of health information technology to support it. A scribe can work on-site or remotely from a HIPAA-secure facility.*
