EKG TECHNICIAN

EKG technicians work with doctors and technologists and specialize in electrocardiogram (EKG) testing for patients.

This course will prepare students to serve as EKG Technicians and take relevant national certifying exams. Students will learn about anatomy and physiology of the cardiovascular system, appropriate patient care, and the legal and medical aspects of patient care. The course will also include comprehensive instruction in EKG placement and interpretation, along with information regarding the role of the EKG in diagnosing and managing cardiovascular problems. In addition to theoretical instruction, students will apply what they are learning in the course through practical, lab-based activities.

Upon completion of this course, students will be fully prepared to work as an EKG Technician. Students will be prepared to take either the AMCA EKG Technician Certification (ETC) national certification exam or the NHA EKG Technician Certification (CET) national certification exam.
