## MEDICAL ASSISTANT

*Medical assistants often take medical histories and record vital signs of patients. They complete administrative and clinical tasks in the offices of physicians, hospitals, and other healthcare facilities.*

This course prepares students to be professional medical assistants dedicated to patient care management. Graduates are equipped to assist physicians with examinations and treatments, take medical histories, perform diagnostic tests, expose X-ray films, sterilize instruments and supplies, assist with minor surgery and administer medications. The course goal is to prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

Completion of this course prepares students for the Clinical Medical Assistant (CMAC) and PTC/ETC exams through AMCA.
